Seminar on environmentally sound management of banks of ozone depleting substances (Decision XXI/2) and thirtieth Open-ended Working Group of the Parties to the Montreal Protocol
14 – 18 June 2010, Geneva, Switzerland

Tuesday, 15 June 2010

Time: 1300 – 1500hrs

Venue: CR 4

Title: North American Proposal to include HFCs under the Montreal Protocol

Organizers: The Government of the United States of America

Description: The United States, Canada, and Mexico have submitted an amendment proposal to the Parties of the Montreal Protocol that would phase down the production and consumption of hydrofluorocarbons (HFCs). This presentation will provide a summary of the 2010 North American amendment proposal. Also, the U.S. Environmental Protection Agency will present analysis on the environmental benefits that could be gained from the adoption of the HFC amendment. The session will conclude by taking feedback and answering questions.

Fax: +1 202 647 5947

Email: ThompsonJE2@state.gov

Tuesday, 15 June 2010

Time: 1800 - 2000

Venue: CR 18

Title: Stockholm Group Co-ordination Meeting

Organizers: Stockholm Group

Description: The Stockholm Group's 9th Meeting will provide a platform to technical experts for informal discussions of how the Montreal Protocol can be strengthened and made more sustainable and at the same time fulfill obligations to Article 5(1) Parties and help protect the climate. The Stockholm Group meetings follow the "Chatham House Rules" where the information and report from the discussions are free for use, but neither the identity nor the affiliation of the participants and speakers may be revealed. The Stockholm Group's 9th Meeting in Geneva will address the following topics:

1. Capturing ozone and climate benefits through:

- a) HFC phase-down;
- b) Management of banks;
- c) Addressing feedstock;
- d) Addressing compliance; and
- e) Any other business

Seminar on environmentally sound management of banks of ozone depleting substances (Decision XXI/2) and thirtieth Open-ended Working Group of the Parties to the Montreal Protocol

14 – 18 June 2010, Geneva, Switzerland

Wednesday, 16 June 2010

Time: 1300 – 1500hrs **Venue:** CR 15

Title: Exhibition of SolarChill Models

Organizers: GTZ Proklima

Description: In cooperation with PalFridge, a local manufacturer of refrigeration equipment in Swaziland, three new SolarChill prototypes have been developed (vaccine cooler, commercial refrigerator and household refrigerator). All SolarChill models operate with climate-friendly hydrocarbon refrigerants. GTZ Proklima will showcase the new SolarChill model(s) and also host a related side-event. The project activity is funded by the German Environment Ministry within the International Climate Initiative and implemented by GTZ-Proklima.
